ColdVision Gooseneck Light Guides

for ColdVision light sources

Gooseneck light guides deliver incident illumination that remains in place after positioning. Generally used to highlight structures through shadows in space-constrained applications, these trusted light guides offer both flexibility and mechanical stability.

Features:

- Flex and stay light guides.
- Available with 1 or 2 branches.
- Available as chrome plated semiobedient metal or black dekabon versions.
- Available as 2-branch Gooseneck plus flexible bundle (Combination Light Guide).
- Available as dual focusing gooseneck with permanently attached spot lenses.
- Focusing optics and filter accessories available.

Advantages:

- Mechanical stability enables longterm usability.
- Flexibility enables precise positioning for complete control of light placement.
- The Combination Light Guide can be stationary, fixed at the microscope post.
- Dual models illuminate a workspace with a single light source.
- Gooseneck legs placed in opposing positions create shadow-free illumination.
