

SCHOTT Termofrost® CRS T.View provides maximum product visibility.

# The solution for maximum product visibility

## SCHOTT Termofrost® CRS T.View: transparent doors for cold rooms

### Product description

SCHOTT Termofrost® CRS T.View is a glass door system designed to improve the visibility of merchandise displayed in cold rooms within supermarkets, convenience stores, flower shops or cash & carry markets.

The door system turns the front of a cold room into an exciting merchandising area. The fully transparent door of the T.View, enlarge the display area and provide a panoramic view of the chilled products or food. Due to the superior design and manufacturing, our cold storage door system helps to control temperatures and energy consumption of the cold rooms while enabling attractive presentation.

CRS T.View is available in wide range of configurations. Three colour's allow individual customisation. The system is available in four heights: Standard height, super height and super extended height for installation on a plinth, and walk-in for installation on floor level. The system requires minimal installation time as it consists of doors and frames delivered ready for installation.

### Take advantage of the benefits

- Clear and unobstructed view through to the cold room
- Modern and attractive food presentation
- Flexibility available in dimensions and configurations

SCHOTT Termofrost® CRS T.View: perfect visual presentation for easy orientation.
