

High visibility for food presentation

SCHOTT Termofrost CRS T.View provides improved visibility.

SCHOTT Termofrost® CRS T.View: transparent doors for cold rooms

Product description

SCHOTT Termofrost® CRS T.View is a glass door system designed to improve the visibility of drinks, dairy products, flowers or fresh meat displayed in cold rooms within supermarkets, petrol stations, kiosks, flower shops or cash & carry markets.

The door system turns the front of a cold room into an exciting merchandising area. The fully transparent door of the T.View, enlarge the display area and provide a panoramic view to chilled products or food. Due to the superior design and manufacturing, our cold storage door system helps to control temperatures and combines attractive presentation with energy efficiency.

This system can easily be adapted to your requirements. Three colors allow individual adaption. The system is available in four heights: Standard height, Super height and Super Extended height for installation on a plinth and Walk-In for installation on floor level. The system requires minimal installation time as it consists of doors and frames delivered ready for installation.

Benefits from

- Clear and wide view to the inside of a cold room
- High stability glass doors

SCHOTT Termofrost® CRS T.View: perfect visual presentation for easy orientation.
