Materials and components supporting laser applications

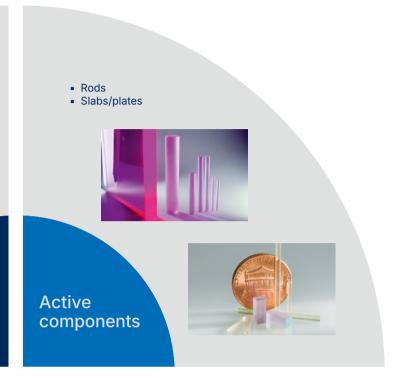

- Silicate-based glasses
- Phosphate-based glasses

Active materials

Passive

materials

- Passive laser glasses e.g., \$7000, \$7005, \$7010N
- Wide range of optical glasses and special variants (e.g., SCHOTT N-BK7°)
- ZERODUR®
- N-BK7HTSultra

Passive components

- Aspherical lenses
 - Mirrors & windows
 - Beamsplitters & polarizers
- Polished prisms
- Optical filters
- Flowtubes
